Mu Murmurs

Mu Chapter of Delta Tau Delta Fraternity at Ohio Wesleyan University

April 2005

House Corporation President's Report

Happy Anniversary Mu Chapter

The 140th anniversary of Mu Chapter will be in 2006. As we approach that milestone we are preparing for the future of Delta Tau Delta at Ohio Wesleyan University.

In the past three years the undergraduates have made real strides and are now once again both competitive and respected on campus. Our young men have worked hard and their efforts are showing with real measurable results. Mu Chapter's website, maintained by the brothers (with a lot of help from Denise Brenner '00), is a good place to see what has been happening.

Now it is our turn to step forward as alumni and help move our chapter to the next level. As those of you following our efforts know, we have assembled a planning committee and done some preliminary studies. Plans for improving the Shelter to make it ready for future generations of Delts are taking shape. We are ready to start sharing those plans with all Mu alumni. While fund raising will be an important part of this effort there will be all

sorts of ways alumni can get involved.

If you would like to hear more about what is going on, or find out how you can join in the effort, please contact me. We want every Mu Delt to be a part of this important work. We think you will be excited to hear what we have planned and how far we have already come. And if you come back to campus for your Class Reunion, Homecoming, our annual Presidents' Dinner or any of the other alumni events we sponsor, don't miss the chance to see for yourself.

Alumni Report

By **John J. Konisiewicz '07**

Brotherhood Beyond The Bow

Mu chapter of Delta Tau Delta has a gleaming history of very prominent alumni. Active members of Mu ponder the idea that someday, too, they will follow the same path of prestige as admired alumni like **Branch Rickey**, **Will McLaughlin**, Nobel Prize winner **Sherwood Rowland**, and countless others. The past alumni of Mu have lived the Creed and set the standards for countless Mu Delts to follow to be committed to lives of

excellence.

Countless alumni, during Alumni Weekends and the occasional weekend visit, come to the Shelter and share tales of the great Delts that have gone before and show the great Delts that they have become. Many highly involved alumni have become models of what a life of excellence truly means. Some are doctors and scientists, others, lawyers and businessmen but all share the same quality in that they have

excelled and made a name for themselves, for Delt.

This, brothers, is the role of an alumnus; to set the standard for each neophyte and active to strive to achieve, and to be the complete Delt to which all actives and neophytes endeavor to become. This is the continuation of brotherhood beyond the time an active becomes an alumni, in essence, an older brother to whom actives can receive guidance. To this, we give gratitude to our older brothers, our exemplars. ■

Committed to Academic Excellence

The Mu chapter of Delta Tau Delta has always strived for academic excellence. The brothers have taken their studies more seriously in the recent semesters and their grades reflect their hard work. The library is more crowded than ever and the "scholar of the week" is becoming a serious competition for bragging rights.

Last year as a house we were fifth in cumulative GPA on the hill and we have risen to third over the past year, thanks to the fact that we had the second highest GPA last semester. If you add the pledges' cumulative GPA to the active brothers' cumulative GPA's, our house GPA is currently a 2.923 with a 3.02 in the fall semester.

Nationally we are part of only 30% of chapters that are in the top three in academics at their respective universities. We can now proudly say that we are one of the few academic leaders on campus. The shelter is at an all time high in academics, campus activities and numbers. We truly have come a long way and have our brothers to thank. ■

Priorities For Mu Chapter

Mu Chapter of Delta Tau Delta has continued to aspire to new heights throughout the spring semester showing improvement in almost every area. Academic Awareness has risen to new levels as Delts moved to second on campus academically. As for the shelter, improvements have been discussed in the daily system and I take great pride in hearing people discuss the trend of better cleanliness that the shelter has undergone. Pledging has gone quite smoothly and I think the 10 guys have really learned a lot about brotherhood throughout the process. These guys have focused on our Delt history and show a lot of devotion to keeping our house the leader on the fraternity hill.

As spring approaches rush is again becoming a top priority. With 16 seniors graduating we will again be putting a lot of effort into getting some guys together for a fall pledge class. Recruitment meetings are beginning to take place and extra emphasis will be placed on filling the house to capacity in the fall. Also, I'm happy announce that sorority relations are better than ever, and many of the girls have been quite impressed by our formal dinners.

Many of the brothers are anxiously awaiting the warmer weather so they can defend their titles in their respective intramural sports. Also, our annual beach volleyball tournament will soon take place with all proceeds going to benefit our selected charity. Overall Delta Tau Delta's campus activity has done a lot for our reputation and our brotherhood has remained one of the strongest on campus. The following year will certainly be filled with continued productivity and I know that all of us returning next fall wish the best of luck to those 16 seniors following graduation. ■

Welcome Back Brothers!

There are many opportunities to return to campus each year and we welcome all Brothers to the numerous alumni events hosted at the house.

Fall orientation/work session with the chapter - typically held the weekend before classes start in August. The fun usually involves a cookout after a day of working on the things like mulching, painting, trimming the bushes and getting the place ready for the start of the semester.

Presidents' Dinner is held on a Saturday in mid-September. All alumni are invited but we especially encourage former presidents to return. We select an alumnus as a guest of honor at this

formal dinner.

The University schedules **homecoming weekend** in mid-to-late October. The Chapter hosts a steak cookout on Friday evening and an open house with food and refreshments after the football game on Saturday afternoon.

On **Pledge Day** alumni join the actives against the pledges in the traditional football game and other brotherhood activities. Usually held the first or second Saturday after classes resume in January.

Monnett Weekend/Delt Fest usually coincides with 'Masters' weekend in April. This used to be a popular spring weekend for alumni and parents, but the University has de-emphasized it in recent years. Mu Chapter will continue the tradition on its own because so many alumni have expressed an interest. The Chapter hosts a steak cookout/dinner on Friday evening and an open house with food and refreshments

on Saturday afternoon. Other alumni activities are often planned.

Alumni Weekend is the week following graduation in May. Several undergraduates stay late to meet and greet returning alumni and the Shelter is generally open all weekend. The Chapter hosts a steak cookout/dinner on Friday evening and an open house with food and refreshments on Saturday afternoon, prior to the various Class Reunion Dinners.

Miscellaneous events are held throughout the year. We have hosted an alumni work session in June the past several years, a Sunday Night NFL game for alumni in the fall and a handful of brothers stay in the Shelter over the summer for alumni who might want to plan a visit. Alumni are welcome virtually any time (except during exams), but we ask that they call ahead if it is not a regularly scheduled alumni event so that the Chapter expects them. Drop-ins at dinner or even Chapter Hall can be also accommodated if you call ahead. ■

Increased Membership Yields Solid Finances

I am happy to report that, due to the tremendous work of the active members, the House Corporation experienced a financially successful year in 2004. Increased membership was one of the key contributors, as the house had one of the strongest membership numbers on campus, averaging 30+ men during both the spring and fall semesters of 2004.

Also contributing to the financial success of the House Corporation was the efficiency of the kitchen. Over the past couple of years, costs had skyrocketed, and quickly grown out of control. We hired a new cook, and I'm very pleased to report that she took immediate control of the situation. During her first full semester, she reduced our food cost by approximately 40%, while at the same time providing higher quality and more nourishing meals. We are pleased to have her aboard.

Our focus this year, is to leverage our increased operating efficiency, and fully prepare ourselves to participate in the upcoming capital campaign. We will also continue our steady improvement of the house furnishings, as much as possible.

Thanks to all the alumni across the country who have contributed their time and talent to the chapter, we look forward to a successful 2005 and the upcoming capital campaign. ■

Delts Excel at Athletics

By **Stephan Schubert '06**

The most important things for a student on a college campus to worry about are their studies and academics, but it is vital not to forget training our bodies as well as our minds. That is why collegiate athletics are so enormously popular, and that trend flows into our fraternity.

Delta Tau Delta's athletic presence on Ohio Wesleyan's campus has been growing in the past year, with former athletes and new ones starting to make Delt's athletic presence on campus known. To begin with, a whopping ten of the players of the Rugby team are members of Delta Tau Delta, including the captain of the team, senior Bryan Asmus. Also of note is senior Reed Needles, who represented Delts on the Wesleyan Diving team, placing 2nd overall in three separate competitions in his first year of diving and placing highly in conference as well.

These athletes have also helped prove that athletics are a phenomenal tool for rush within any fraternity. In our chapter, we have found athletics a great stepping-stone toward getting to know possible new members. Five of our current pledges are involved in Wesleyan athletics, including rugby, football, and baseball. ■

Brothers Give Back To Community

Three times a week, Brothers travel to Willis Middle School to tutor students. Through Adopt-A-School, Brothers not only contribute to the community and help elementary students with their studies, but they gain the friendship and respect of many of the community's children.

Mu Chapter also holds an annual fundraiser to raise money for the Delaware County Humane Society. ■

A Senior's Reflection

I've often heard that the four years of college are among the best of a person's life. It is no wonder some of our 15 graduating seniors are not looking forward to graduation. I can truly say that I will always look back fondly on my time spent in Delta Tau Delta. Pledging, community service projects, social events, brotherhood events, late nights spent studying in the first floor library, and the community of open doors have given me much more than I feel I will ever be able to repay.

The idealism inherent in the operation of Delta Tau Delta has encouraged me, and many others, to learn from so many wonderful examples of brothers who have come before us in the constant succession of Delts. Among the most inspiring are the stories of the heroism of **Will McLaughlin** and the moral resilience of **Branch Rickey**. Mu chapter has produced clergymen, successful entrepreneurs, a Nobel Prize winner, and heroes of the fraternity. These examples will help to provide me excellent examples of how to live a life of excellence.

Idealism aside, the most obvious benefit from membership in Delta Tau Delta will be the many friendships I have gained. I've had the wonderful opportunity to learn from my mistakes time and time again with the help, and often teasing, of my brothers. It is likely that there will not be another time in my life when I can live with such a close group of 30 friends.

It is my hope that now as I begin actually receiving these newsletters as an alumnus that I can take the idealism, friendships, and experiences with me for the rest of my life. ■

Mu Delts Attend Conference

This year's Northern Division conference took place February 4 to 6 in Indianapolis, Indiana, and was attended by seven Delts from Mu chapter, including active members Stephen Schubert, Matthew Work, Ross Brater, and George Tidwell. Three pledges, Jamie Losee, Jamar McClaney, and Aron Korashan, also attended the conference, which was themed "WE are Delta Tau Delta." The brothers stayed at the luxurious Marriott in the heart of downtown.

Divisionals proved to be an unforgettable weekend for the brothers who made the pilgrimage. Apart from meeting brothers from the thirty-five chapters and colonies of the Northern Division, the Mu brothers were also able to hear remarks from Don Kindler, Division President, greet countless alumni, and interact with dozens of officials from National Headquarters. In addition, brothers attended various "breakout sessions" with topics that ranged from how to run a better executive committee to managing finances to aiding recruitment efforts. The knowledge gleaned from these events will surely help to grease the gears of the machine that is Mu chapter of Delta Tau Delta.

It was particularly rewarding for the brothers that went to see the Delts from Beta Phi chapter at Ohio State University attend the conference. Last semester, the brothers of Mu Chapter performed the colonization ceremony in Columbus, bringing Delta Tau Delta back to campus at Ohio State.

These are the times when the longevity, magnitude and scope of brotherhood are made apparent, and more crystal clear than ever. ■

Alumni Updates

Visit www.owdelts.org for more news and photos of your brothers.

William Eells '46

(54 Elmwood Dr., Delaware, OH 43015-1617; willameells@mac.com) I was 81 years old in March and am enjoying retirement at my home in Delaware, Ohio. I keep busy by serving on numerous boards and projects I have been interested in, especially the arts. I keep in touch with my son, **Jonathan William Eells '89**. Jonathan and his wife Brenda live in Lake Arrowhead, Calif., and have two children, Wyatt Hastings Eells and Audrey Eleanor Eells. I keep in touch with the chapter, and brother **Gio Scappini '05** helps drive me around to make appointments.

Edwin Heminger '48

(14771 County Rd. 75, Findlay, OH 45840-9027; edheminger@thecourier.com) I enjoy an active retirement. My son Karl, a Delt from the University of Kentucky, is now president of our family-owned business that includes two newspapers and seven radio broadcast stations. Two other offspring, Meg (OWU '79) and Kurt (BGSU '84), are also active in the business. I recently visited in Dallas with brother **Tex McElyea '47** and his wife Mary Lou. Tex and I were initiated simultaneously and have remained close

friends ever since. Tex has attended every Karnea since 1946, and I am one short of his record. I still share in some Delt activities. Wife Barbara and I have our three offspring and seven grandchildren all living in Findlay, a much-appreciated blessing.

Dr. Richard F. Rosser '51

(21 Twin Pond Rd., Topsham, ME 04086-5149; RFRosser@aol.com) I've now been living some three years on Twin Pond Road in Topsham, Maine. I'm finally retired but as busy as ever. I'm on the OWU board and on the board of my Unitarian Church in Brunswick, Maine. When it comes to sailing, the Maine coast is probably the most dangerous but also the most beautiful area of the U.S. A major project to be finished is the editing of my great-great-grandfather's letters home during the Civil War.

Dr. John E. Moore '53

(1730 Grape St., Denver, CO 80220-1351; moore123@aol.com) I finished a geologic and hydrologic overview of Peaceful Valley Scout Ranch in eastern Colorado. I went to Serbia to teach hydrology during a special week-long course

in May 2004. I participated in an Egyptian field trip (see the picture of me near the pyramids) sponsored by the International Association of Hydrogeologists' (IAH) Commission on Mineral and Thermal Water in October

2004. After three days in Cairo we left for a one-week field trip through the western desert of Egypt. I visited a number of oases and Nubian artesian wells. After leaving the last oasis we said goodbye to the three soldiers armed with AK-47s who had followed our bus in a van. In October I also attended and presented a paper at the IAH meeting in Zacatecus, Mexico. I was also awarded the Boy Scout of America Silver Beaver Award in 2005.

Frederick Rice '58

(2 Canterbury Way, Cape Elizabeth, ME 04107-1100; ricenhowe@gwi.net) The class of '58 is holding its annual reunion in

Cape Elizabeth, Maine, from July 11 to 16. So far we have reservations from brothers **Dick Allen**, **Charlie Brown**, **Mike Geehan**, **Dick Hottel**, **Roger Manton**, **Fred Rice**, **Bill Russell**, **Bob Stevens**, **Ed Whipps**, **Gaylord White** and **Bob Wilkinson**. Others may call 207-767-1637. Georgia and I went to Paris in January, came home for my prostate operation and to launch the boat, and are off to Tuscany in May...

Robert Wahl '60

(2276 Shady Hills Dr., Diamond Bar, CA 91765-2817; wahlteddy@adelphia.net) Greetings. I live in Diamond Bar, Calif., with my wife Frances. I have been retired for five years now. We visited **Ed Lutz '60** and his wife Jean at their home in Prescott, Ariz., in February 2004. Ed is also retired. **Bob Olson '60**, who lives in Scottsdale, Ariz., joined us for a day. I had lunch in April of last year with **Jerry Child '60**. It was great seeing Bob and Jerry. Ed and I have been in touch since we left OWU. All of us are from the class of 1960. I communicate with Ed and Bob all the time. I would enjoy hearing from anybody.

Robert Wright '62

(P.O. Box 38, Bradford, NH 03221-0038; triad@mcttelecom.com) Dear brothers, if I ever figure out how to e-mail pictures, I will send you one in which I ran a marathon with my grandson. I am getting close to 65 but will still continue to work in the insurance business, see my kids and grandkids, and participate in a marathon or triathlon. I really appreciate your efforts to get in touch with us. It is very thoughtful of you.

Scott Sattler '68

(2466 Russell St., Eureka, CA 95503-5648; ssattler@cox.net) I have been a family practice physician in Humboldt County, Calif., since 1974, following my training at Stanford Medical School. I retired from family practice after 30 years on January 1, 2005. I'm an instrument-rated pilot, a parlor magician and the father of two daughters in college: Amelia, who graduates from the University of Puget Sound this May, and Shanti, who is finishing her second year at Tufts in Boston. Kathy, my wife of 26 years, is a family nurse practitioner who continues to practice. Life is good, and I would enjoy contact with other Delts should the occasion arise!

Keith Walker '68

(1318 Ruth Ave., Cuyahoga Falls, OH 44221-2936; kwalker928@core.com) I thought you might like a picture of some Mu Delts taken at an OSU hockey game in

January. Left to right are **Keith Walker '68**, **Mike Flack '68**, **Charlie Andrews '69**, **John (Jack) Flack '70** and **Ron Porta '69**.

Richard Cromwell '69

(2233 Cheltenham, Toledo, OH 43606; sfs14@toast.net) I just finished my 29th year as a head football coach in high school. My teams have won 220 games at Olmsted Falls, Findlay and Toledo St. Francis. We had two state championships, in 1984 and 2001, both at St. Francis. I am presently head football coach and co-athletic director, and teach two classes of math at St. Francis. I will be inducted into the Ohio High School Football Coaches Hall of Fame this April. My son Brian graduated from OWU in 2002, and presently teaches and coaches at Desales High School in Columbus, which we just happen to open with on August 26, 2005. Daughter Jenna (OSU '02) lives in Toledo and works as a buyer for Sofo Foods Inc.

Steven McKeever '70

(2556 Prestonwood Dr., Plano, TX 75093-8891; mckeeve@jcpenny.com) All is well with the McKeeveres. Liz Cunningham and I have been married almost 35 years, and I've been working at JCPenney since graduation in 1970. We travel a lot, as our three kids have all graduated from college and are fully employed (technology, FBI agent and commercial real estate); two are married. We are both avid golfers, and last summer we went to The Garden of the Gods Club in Colorado Springs with Gay and George Arthur '69 for a great golf and bridge reunion. This summer Liz and I are taking a golf cruise through Scotland and Ireland, stopping at the British Open for two days.

Bruce Albrecht '74

(8259 Roxborough Loop, Gainesville, VA 20155-3215; balbrecht@puav.com, phrogdrv@aol.com) I retired as

a colonel from the U.S. Marine Corps in 2003 after 28 years. I am currently the president of Pioneer UAV Inc. I live with my wife of 27 years, Mary. We have three children: Amanda (22), Meredith (20) and Brian (17).

James Barger '78

(2153 Adair St., San Marino, CA 91108-2605; jamesbarger@earthlink.net) I am a general engineering contractor working in Arizona, California, Nevada and Hawaii. I specialize in pools/spas and water features. I have done a lot of work in Las Vegas; Mandalay Bay, Caesars, Luxor, Hardrock Hotel and Sahara are some of the projects. I have a 15-year-old son, James, who is a freshman at the same high school I went to. I seldom see Mu brothers unless they travel to the West Coast. Several came for Karnea,

which was nice. Here is a picture of a stainless steel pool that I just installed on the 39th floor of the Marriott in Las Vegas.

Ralph Stewart Hirsch '87

(2619 Love Dr., Columbus, OH 43221-2644; ralph.hirsch.1987@owu.edu) After nearly 18 years in the television news business in Columbus, I am departing WCMH-TV (NBC) to become the managing editor at WNCN (NBC) in Raleigh, N.C. My wife Lisa and our three boys — Thomas (9), Tyler (8) and Trevor (3) — will join me once the house sells! It's a great opportunity to move up in the NBC food chain, and will allow both personal and professional growth. Plus, the golf is good!

Congratulations!

Caroline Pinckney Rosen was born to Eliza (Robinson '98) and **Rob Rosen '96** on February 1, 2005 at 5:31 a.m. The baby weighed in at 7 pounds 1 ounce and was just shy of 20 inches long.

Alumni Updates

Donald Guilbert '91

(5515 Village Crossing, Hilliard, OH 43026-7923; don_guilbert_jr@yahoo.com) I am vice president and small business officer at National City Bank in Columbus, Ohio.

Matthew Maraffi '92

(52 Beaumont Pl., Fairfield, CT 06430-5704; Mattmaraf@aol.com) Traci and I have had a third son. Luke is now 7, Will is 5, and Mark was born last August. We are continuing to design for theatre and film. I have also been working as project manager at Atlas Scenic Studios, building scenery for many Broadway shows, most recently for "On Golden Pond" starring James Earl Jones. Feel free to look me up if anyone is in the area.

Jason S. Milligan '93

(345 Lantern Ln., Plain City, OH 43064-2127; millig01@yahoo.com) I was Mu Chapter president (1992) and IFC president (1991). We live in Plain City, Ohio, where I sit on the Village Council and am enjoying life with my wife Camille. I have been working in Columbus in the heavy equipment industry for the last six years. I earned my MBA three years ago. I enjoy staying in touch with **Graham Allison '93**, and we occasionally get together with **Josh Witte '93** as well. I hear good things about Delt and am glad to know the house is growing and still maintaining a decent GPA. Keep up the good work!

Adam Kramer '95

(31 River Ct., Apt. 1206, Jersey City, NJ

07310-2024; adam.kramer.b@bayer.com) I'm currently living five minutes outside of NYC and working in the pharmaceutical industry. I can be reached at 201-739-0842 or by e-mail. If you're visiting in NYC, please contact me; I'd love to hook up. I'll be coming out to Ohio in May for our 10th-year reunion. I keep in regular contact with **Joe Smith '96**, **Nate Hughes '95**, **Mike Doyle '95**, **Jeff "Boom Boom" Montague '94** and **Carl Mussenden '90**. Last summer I was able to visit the Doyles out in Michigan.

Robert Owens '95

(82 W. Central Ave., Delaware, OH 43015-1912; robert@owenslawoffice.com) I opened my law practice in 2003 with my wife Teri, and we are now ready to expand. In 2004 we started adding staff, and in March we added an associate. In February we launched IT Genesis, a career training center specializing in placing adults in the information technology field. I quickly came to realize that running two businesses

is not nearly as fun as running just one business. My workday starts at 7:00 a.m. and ends about 10:30 or 11:00 p.m. in the good weeks. I have a few all-nighters per month when I have jury trials. I eat unhealthy food at odd times of the day when my work schedule allows. Saturdays and Sundays have no particular distinction from any other days of the week. I did not even realize when the NCAA Tournament had started until I overheard a client conversation on the evening of St. Patrick's Day. Ten years from now I hope it will all be different. Lots of work between now and then... Visit our Web sites at www.owenslawoffice.com and www.itgenesistraining.com.

I am the Delaware Kiwanis adviser for Circle K, a volunteer community service organization at Ohio Wesleyan. It is

an international organization that has leadership offices at the club, state and international levels. This year, Ohio Wesleyan won Best Club, Most Improved Club, and several Distinguished Officer and Committee Chairperson awards.

Terry Williams, a sophomore at OWU, was elected as Ohio governor of Circle K, the first time OWU has had a student in the top post since 1961. Check out Circle K's Web site at www.ohiocki.org. ■
